- **Tools & Integrations:** CI/CD (GitHub Actions), Unit & Widget Testing, App Deployment (Android & iOS), Notifications, Google Maps, Appsflyer

CERTIFICATIONS

- Flutter Clock Challenge Certified by Google
- Mentor at INCUBATE IND for Flutter
- Android Malware Workshop – Azure Skynet, MRU
- Infosys Foundation Program & Communication Training

PROFESSIONAL EXPERIENCE

Intelliquity Services, Pune | Senior Software Engineer | Feb 2023 – Present

- Led Flutter development for a gold trading and digital payments app (Equiti Gold), achieving **50K+ downloads** across stores.
- Architected modular BLoC-based structure and integrated Firebase/Auth/Remote Config/Analytics for scalability and reliability.
- Implemented biometric authentication, push notifications, and marketing attribution (Appsflyer), boosting engagement and retention.
- Optimized performance with ObjectBox, Hive, and secure storage, ensuring speed and security at scale.

CarDekho (Girnarsoft), Gurgaon | Senior Software Engineer | Jan 2022 – Feb 2023

- Delivered an internal Retail App adopted by 1,000+ Relationship Associates, improving field reporting efficiency by 40%.
- Built secure dashboards and workflows, reducing manual effort and ensuring compliance with sensitive financial data.
- Optimized performance with BLoC-based state management, enabling faster load times and smoother navigation.

Pegasus Infocorp, Mumbai (Onsite: Kotak Securities) | Senior Software Engineer | Sep 2020 – Dec 2021

- Contributed to Kotak Neo, the flagship trading app with **5M+ downloads**, enhancing accessibility for retail investors.
- Developed login, dashboard, and secure transaction modules, ensuring seamless trading experiences.
- Implemented multi-factor authentication (OTP & biometrics), strengthening security and regulatory compliance.

AppFlow Solutions, Faridabad | Flutter Developer / iOS Developer | May 2017 – Sep 2020

- Contributed to CoachBetter **(10K+ downloads)**, a sports training & collaboration app, developing cross-platform features with Flutter, Swift, and Firebase.
- Built multiple native iOS/Android and Flutter apps, gaining hands-on experience that established the foundation for later large-scale projects.
- Collaborated with clients and teams to deliver scalable solutions, transitioning from native to Flutter and accelerating delivery timelines.
